Professional Summary

Compassionate, patient, and highly reliable support professional with a strong background in child development, emotional support, and structured care. Experienced in creating safe, supportive environments that promote dignity, independence, and well-being for both children and older adults. Skilled in building trusting relationships, assisting with daily activities, supporting learning and development, and responding calmly and effectively to challenging situations.

Holds a Bachelor of Arts with a focus on child development and community support. Demonstrates a strong commitment to person-centred care, safeguarding, and inclusive practice. Passionate about supporting individuals to overcome social, emotional, and behavioural challenges, enhancing their quality of life.

Key Skills

Compassionate Patient Care

Ability to provide calm, patient, and person-centred support to individuals with a range of emotional, physical, and behavioural needs.

Emotional Support and Well-being

Skilled in offering reassurance and emotional support to patients, including those experiencing anxiety, distress, or cognitive challenges.

Communication and Relationship Building

Strong interpersonal skills with the ability to build trusting relationships with patients, families, and multidisciplinary healthcare teams.

Support with Daily Living Activities

Experience assisting individuals with daily tasks, promoting independence while maintaining dignity and respect.

Observation and Monitoring

Able to observe patients' condition, recognise changes in behaviour or well-being, and report concerns promptly to senior staff.

Infection Prevention and Health & Safety

Knowledge of maintaining high standards of hygiene, cleanliness, and adherence to infection control procedures.

Teamwork and Collaboration

Works effectively as part of a healthcare team to deliver safe, high-quality, and coordinated care.

Organisation and Time Management

Able to prioritise tasks, follow care plans, and work efficiently in busy care environments.

Patience and Resilience

Calm, adaptable, and responsive when supporting individuals with complex needs or in challenging situations.

Professional Experience

Healthcare Assistant

Eleanor Healthcare Group – Bromley, London

June – Nov 2025

- Maintained a clean, safe, and hygienic environment in accordance with infection prevention and control (IPC) guidelines.
- Assisted patients with activities of daily living, including personal hygiene, mobility support, and ensuring comfort and dignity at all times.
- Supported the preparation and cleaning of patient areas, equipment, and communal spaces to promote a safe environment for vulnerable individuals.
- Followed health and safety procedures, including safe handling and disposal of clinical waste and adherence to hygiene protocols.
- Monitored and reported any changes in patients' condition, behaviour, or well-being to senior healthcare staff promptly.
- Worked collaboratively with nurses and multidisciplinary teams to deliver person-centred care.
- Built positive, trusting relationships with patients, providing emotional support and reassurance where needed.
- Maintained accurate documentation and adhered to safeguarding, confidentiality, and patient safety policies.
- Demonstrated reliability, compassion, and strong teamwork within a busy healthcare setting.

Owner & Manager

Studio 24 Restaurant, Kampala

2017 – May 2025

- **Customer Service Excellence:** Delivered personalized customer service, ensuring that each guest received attentive care. Cultivated a loyal customer base, similar to building strong customer relationships in a retail environment.
- **Team Leadership & Training:** Recruited, trained, and managed a team of 10+ employees, fostering collaboration and high performance. Ensured smooth daily operations, similar to managing retail store staff.
- **Sales & Product Promotion:** Boosted sales by introducing new menu items and engaging customers, skills that translate to promoting products and upselling in a retail environment.

- **Inventory Management:** Managed inventory to ensure consistent product availability, a key transferable skill for handling retail stock and merchandise.
- **Operational Efficiency:** Maintained a clean, organized, and efficient environment, focusing on customer satisfaction and operational flow, much like maintaining store standards at the Cathedral.

Primary Care Giver – Kampala, Uganda

August 2004 – 2025

- Provided structured daily support for three children, guiding their educational development, emotional wellbeing, and behaviour management.
- Created consistent routines to support learning, homework completion and personal development.
- Supported children in managing emotions, resolving conflicts, and developing positive behaviour and social skills.
- Encouraged independence, confidence and resilience through structured responsibilities and supportive guidance.
- Maintained communication with schools and teachers to support children's academic progress and wellbeing.
- Helped children overcome learning and emotional challenges through patience, encouragement, and structured support.
- Delivered compassionate care to an elderly family member requiring daily assistance and emotional support.
- Assisted with mobility, daily routines and maintaining a safe and supportive home environment.
- Demonstrated patience, empathy and responsibility when supporting complex care needs.
- Developed strong observation and problem-solving skills to respond appropriately to changing needs.

Education

Bachelor of Arts

Makerere University, Kampala, Uganda

23rd February 2007

- Relevant Modules: Social Policy, Gender, State and Civil Society, Community-Based Intervention Strategies, Gender and Population, Children and Development Issues.
- Acquired a comprehensive understanding of social policies, community development, and gender-related issues, applicable to caregiving and support roles.

Professional Development

- Attended workshops and seminars on caregiving techniques to elderly and children.

- Completed a 5day care training provided by Eleanor Care Group.
- Completed an Olive McGowan eLearning course on disability and Autism
